1. WELCOME

Dear Nursing Student,

Welcome to Denver Health! I am Natalie Nicholson, DNP, MBA, RN, NEA-BC and I am honored to serve as the Chief Nursing Officer. As you begin your nursing journey, I want to personally welcome you to our institution—a place where learning, excellence, and compassionate care come together.

At Denver Health, we are proud to have a team of over 3,000 professionals across Nursing, Respiratory Therapy, and Rehabilitation Services. Every day, we are driven by a deep commitment to providing compassionate, respectful, and high-quality care to our patients and their families. We believe in accountability, transparency, and fostering a culture of belonging—values that shape everything we do. With over 1.4 million patient visits and nearly 300,000 individuals cared for last year alone, our impact is both profound and far-reaching.

Our commitment to nursing education is part of our legacy. In 1887, we opened the first nursing training school west of the Mississippi, setting the foundation for a tradition of excellence. Today, many of our nurses hold a bachelor's degree, and our national board certification rates exceed the national average, demonstrating our dedication to professional growth and high standards of care.

This Nursing Student Toolkit is designed to help you make the most of your time at Denver Health. It is a resource to guide your learning, foster your growth, and ignite your passion for healthcare. Here, you will be surrounded by a supportive, interprofessional team dedicated to preparing the next generation of healthcare professionals. Our goal is to create an environment where our employees—and soon, you—are proud to recommend Denver Health to friends, family, and colleagues.

We invite you to be part of our mission to become Colorado's most trusted healthcare provider. At Denver Health, you will have the opportunity to learn, grow, and thrive alongside a team that is here for life's journey—offering mentorship, guidance, and unwavering support as you build a meaningful and rewarding career.

I look forward to witnessing your growth and celebrating your successes. Welcome to Denver Health!

With gratitude,

Natalie Nicholson, DNP, MBA, RN, NEA-BC

Chief Nursing Officer

2. WHY DENVER HEALTH

- **Mission driven**
- **Career growth**
- **Shared leadership**
- **Values in action:**

Respect, Belonging, Accountability, and Transparency.

When you join Denver Health, you join a network of care. We are compassionate, mission-driven and committed to improving our communities.

High-quality care for all is at the heart of Denver Health's mission. As Colorado's primary safety-net institution, we are driven to serve the people of Denver regardless of their social or economic situations.

Denver Health has been serving the people of Denver as an pillar in the community since 1860. We care for the whole person by addressing factors like access to healthy food, housing, employment, transportation, and education.

Denver Health provides several rewarding career paths for nurses from our level one trauma center, to our urgent care centers, inpatient care at our main hospital, and outpatient care at community health centers located throughout the city. We welcome nurses from all career stages, whether you have many years of experience or have just completed your degree; there is a place for you at Denver Health.

Nurses are an essential part of our collaborative care teams. We welcome to you join our team, where you will have a chance to provide care to patients from all walks of life and handle cases at every level of complexity, unlike any other hospital system in the Rocky Mountain Region.

Denver Health Nurse Residency Program at Denver Health is recognized by the ANCC Practice Transition Accreditation Program® (PTAP).

3. BELONGING TO DENVER HEALTH

How can I find my career fit?

Denver Health is actively hiring a variety of nurse positions. One of our greatest nursing-related priorities is our nurse-to-patient ratio and focusing on appropriate staffing. To identify all the career opportunities available, visit

[DenverHealth.org/NursingJobs](https://denverhealth.org/NursingJobs):

- [Click on "Apply as an External Candidate"](#)
- Type "New Grad" in the Job Title field to see open positions.

Required Experience: n/a

Required License/Cert: BLS for Healthcare Providers

8. LIVING IN DENVER, COLORADO

A rapidly growing metropolis located at the foot of the Rocky Mountains, Denver offers all the amenities of urban living surrounded by unparalleled natural beauty. Outdoor lovers need to look no further than their own backyard for some of the country's best hiking, biking, climbing and skiing. However, those with more of an interest in the arts will find a multitude of museums, performing arts centers, music venues and a burgeoning culinary scene.

Denver is one of only two cities in the United States with eight professional sports teams, ranging from baseball, football, basketball, hockey, soccer, and lacrosse.

While Denver proper is composed of an array of diverse neighborhoods, many providers in our group also choose to live in surrounding areas in the foothills and nearby cities such as Golden and Boulder. The central location of Denver Health makes this a feasible and convenient option.

Some of the closest Neighborhood to our main campus are:

Art District on Santa Fe

Downtown Denver

Capitol Hill

The city's location at the base of the Rockies yields overall mild temperatures with average high temperatures of 45 degrees F and 86 degrees in winter and August respectively. The arid climate translates into low levels of precipitation with only 8-15 inches annually. The city also boasts 300 days of sunshine per year more than Miami or San Diego. This makes outdoor activity in one of the city's 200 parks a year-round possibility.
